

Left to Right: County Legislator V. Jim Bono; Senator James Seward; Councilwoman Bette Szesny; Acting Hwy Supt. Phil Johnson; Supervisor Anthony J. Lucenti; Councilman Rodney Dodge; Councilman Joe Juliano.

Thank you to Councilman Juliano who had arranged the meeting with Senator Seward.

**GRANT FUNDING SOUGHT
FOR SEWER DISTRICT
CLEANING & MAINTENANCE**

Members of the Town Board, together with County Legislator V. Jim Bono and Deputy Highway Superintendent Phil Johnson, traveled to the State Capitol Building in Albany on Tuesday, April 3rd, to meet with Senator James Seward along with funding agency representatives from the DEC, USDA Rural Development Agency, and NYS EFC on Tuesday, April 3rd, to discuss the Town's eligibility for funding resources to offset costs associated with required maintenance and cleaning of Schuyler's sewer system. In 1978, infrastructure to install sewer lines in a small section along Route 5 with threads extending into adjoining residential developments and manufactured housing communities was accomplished, and it is now necessary to carry out some maintenance work that will ensure the longevity of the aging sewer infrastructure.

The Town's sewer system, as is the case with those in all other area communities within the system, is governed by the Oneida County Sewer Commission.
